BENEFITS FOR VENUES
A labyrinth is a beautiful landscape feature and is a valued addition to any space, private or public, aesthetic or functional. The benefits of a labyrinth for venues are:

• It will create a sense of beauty and mystery in the environment
• It has the potential to attract visitors to a venue especially for formal interaction as a ceremonial space
• Visitor numbers increase through a desire to interact with the labyrinth in a non formal capacity, a “self guided” interaction which is always available without the need for staffing or supervision
• Venue promotion can be increased and targeted towards the uniqueness of the labyrinth
• A heart shaped labyrinth in a wedding venue is romantically symbolic and adds appeal and ideal photo opportunities
• The labyrinth is a great space to connect and play for children
